### SLOT MACHINISTS GIVE BAIL.

Pease, Knight and Clark Present

Themselves with Bondsmen. H. C. Pease, Martin Clark and E. A. Knight, three of the nine men indicted as a result of the Lexow, surrendered themselves yesterday and gave bail for their appearance at court. Judge Edwards fixed the ball at \$300 in each

Phil Coyne became bondsman for Pease in the sum of \$2,100, there be ing seven indictments for keeping gaming house returned against him. Knight, who has six charges of the ame kind to answer was released on \$1,800 bail furnished by William Kelly. Clark, who has three charges of at tempt to compound a misdemeanor recorded against him gave \$900 bail. Mr. Kelly became his surety.

Constables Mitchell and Woelkers vere in court in the morning ready to give bail but finding the judges did not want to have the common pleas pro ceedings interrupted went away with the intention of presenting themselves when court opens this morning. The other four, Messrs. Fellows, Maloney, Oblinger and Seldman are expected to urrender themselves today. Their cases are set down for trial

eek after next.

### IMPROVING NAY AUG PARK.

Contractor Peter Stipp Put a Force

of Men at Work Yesterday. Contractor Peter Stipp began work yesterday morning on the extensive improvements to be made in Nay Aug park. He will push the work as rapidly as possible, and, while under the provisions of the contract he has until September to finish the work, he will make an earnest effort to complete 't by the middle of the summer, so that people may have the benefit of the improvements for a portion of the year

The work which Mr. Stipp will do will be done at the southeastern porion of the park entirely. Instead of spending the money at their control to fix up all of the park a little, the park ommissioners are determined to permanently and completely improve one portion only.

All of the land in this section of th park will be graded off and upwards of a mile and a quarter of macademized roadways and walks will be constructed.

A band stand of handsome appearance and commodious size will also year. be built. The swimming pool will not be constructed this year. That is definitely known.

### HE SMASHED THE PIANO.

Charles Latham Arraigned Before Alderman Kasson.

The case of Charles and Joseph Latham, of Ash stret, who were ar rested last week by Patrolmen Thomas and Jones, on the charge of fighting, was continued Saturday night in Alderman Kasson's office. The two men Mr. Roche announced that the minorihad engaged in a quarrel in the course of which Joseph inflicted serious injuries on Charles. After the conflict and proceeded to even matters up by smashing to pieces a valuable plano Coyne were appointed as a committee owned by his brother. He made it an almost utter wreck and another engagement was then precipitated which was in readiness. Mr. Wagner made the entry of two guardians of law and

order brought to a close. In police court the next morning Mayor Moir fined Joseph \$10 and let Charles off free. Joseph then had Charles arrested on a warrant issued he took time to prepare them beforeby Alderman Kasson, and the case was heard Saturday night. There will be further hearing Thursday night.

### CERTIFIES CONTRACT.

Controller Signs the Electric Light Asphalt Agreements.

As the general appropriation ordinance now stands, approved with the exception of the two items vetoed by the mayor, Controller Howell yesterday certified the ten-year contract between the city and the Scranton Electric Light and Power company and the same became immediately operative, having received all of the other requisite signatures.

The centroller also certified for one year more the contract with the Bar-Eugene Fellows and Tudor Williams, of ber Asphalt company for the repairing of the city's asphalt streets. This is a ten-year contract, but the controller refuses to certify for more than one year

### CLASS REUNION.

Class of '99 of the High School Will Come Together April 20.

Friday, April 20, the class of '99 of the Scranton High school will hold a reunion in the Scranton Bicycle club house on Washington avenue. Bauer's full orchestra will be in attendance and a most enjoyable time is promised. Invitations are now being issued by the committee in charge, which was appointed last June by the president of the class. The members of the senior class of the High school will be the only outside guests present.

### REURGANIZATION OF THE CITY COUNCILS

WAGNER AND GRIFFITHS WERE CHOSEN CHAIRMEN.

Martin T. Lavelle Was Re-elected City Clerk and William Lynett, Democrat, of the Third Ward Was Made Clerk of the Common Council Defeating Hugh Jones, Republican, Who Held That Office Last Year-William Smith, Republican, Swung Over to the Democrats.

Martin T. Lavelle was yesterday morning re-elected city clerk for a term of two years, to succeed himself. His election was effected at the annual reorganization of both branches of ouncils, held at 10 o'clock. Charles F. Wagner, Republican, from the Tenth

WILLIAM V. GRIFFITHS. New Chairman of the Common Council.

ward, was elected chairman of select council, and William V. Griffiths, Republican, from the Fourth ward, was chosen chairman of common council. William Lynott, Democrat, was elected clerk of the common council, which was rather in the nature of a surprise. He defeated Hugh Jones, Republican, who has served in that capacity for a

After select council had been called to order, the retiring chairman, Richard H. Williams, was unanimously chosen temporary chairman. The following new members were then in their seats: John J. Costello. Third ward: Andrew B. Lidstone, Thirteenth ward; Joseph Oliver, Fifteenth ward; F. H. Clemons, Seventeenth ward: Daniel W. Vaughan, Nineteenth ward.

WAGNER NOMINATED.

Mr. Finn placed the name of Charles Wagner in nomination, whereupon ty had no candidate to nominate. The vote was then taken, showing all members present voting for Mr. Wagner was over Charles procured an axe He was accordingly declared elected and Messrs. Roche, Chittenden and to escort him to the chair, where he was sworn in by Mayor Moir, who a few brief remarks, expressing his thankfulness and asking for the support of the members during the coming year. He then announced his committees, being so sure of election that

It will be seen from a perusal of the list given below that the Republican representation on nearly every committee is three and the Democratic representation, two. In each instance the first member of the committee is

LECTURE BY CHAPLAIN PIERCE. Will Speak at the Penn Avenue Baptist Church Thursday Evening.

Unusual interest attaches to the com ing of Chaplain C. C. Pierce, who is to lecture in the Penn Avenue Baptist church next Thursday evening. Bishot Potter, of New York, in an open let ter to the clergy of America, says from personal observation during his recent visit to Manila, that no one has rendered the cause of Christianity such distinguished service in the Philippines as has Chaplain Pierce. Since his return he has given most valued advice to the government in its plans for the civil, military and religious matters affecting the future of the Philippines.

Many people are interested to learn about the new people who have by the fortunes of war come under the protection of our flag, and no one is better able to speak upon these matters of vital interest in the islands than Chaplain Pierce. He has consented to give this address under the auspices of the Young People's Society of Christian Endeavor of the Penn Avenue church, and the committee have placed the cards of admission at 25 cents. Rev. Dr. Pierce, the pastor, says an infor-mal reception will be held in the lower temple of the church after the lecture to afford an opportunity to meet the chaptain socially.

### BOY BADLY INJURED.

Charles Scheiber Had Both of His Feet Crushed on the Erie and Wyoming Valley Railroad.

Charles Scheiber, the young son of eter Schieber, of 923 Meadow avenue, South Scranton, vesterday fell from a freight car near Maple street, on the Erie and Wyoming Vailey railroad, and both of his feet were passed over by the car, with the result that it was found necessary to amputate both of them at the Lackawanna hospital, where he was taken for treatment.

The accident happened about 11.45 o'clock yesterday morning. Young Scheiber, with two companions, was boarding cars as they passed, riding a short distance and then springing off. As he attempted to get on this particular car, he slipped and fell. feet were on the track and the car passed over them.

The boys with him rassed the injured lad from the ground and carried him to Spruks' lumber yard, nearby. Mr. Scheiber, the boy's father, who works in the Nut and Polt works, was then notified, and the Lackawanna hospital was made aware of the accident.

Dr. C. W. Wunder was disratched with the ambulance and soon arrived and took the boy to the hospital. Both of his feet were badly injured, the left one even more so than the other, and from the first it was seen that amputation would be necessary. About 4.30 o'clock the boy was taken into the operating toom and then the amputation took place.

### MISSIONARY MEETING.

It Was Held at the Home of Mrs. C. D. Simpson.

A most interesting missionary meeting was held at the home of Mrs. C. D. Simpson yesterday afternoon, when the chief feature of the occasion was a fine address by Mrs. W. H. Pearcy, of Wiikes-Barre. She spoke on the tieth Century Movements and gav onpurpose. The Philadelphia branch, of which this district is a part, has apportioned to it \$21,000. As there are something like 147,000 women members of the Methodist church in the branch Mrs. Pearce spoke of the great possibilities if only every woman would give 50 cents for a thank offering to the Twentieth Century fund. Mrs. Pearce's address was such that it could not but inspire her hearers with the beautiful enthusiasm so characteristic

of this talented lady. The programme of the afternoon was varied by solos by Mrs. H. H. Brady, ir. Refreshments were served and delightful social hour tnjoyed.

### THEY WANT \$20,000.

That Is the Amount of the Building Committees Estimate.

The building committee of the board of control, at a meeting held last night, decided to ask for an appropriation for the coming year of \$20,000. This is \$2,000 more than was allowed last

The sum of \$11,000 is wanted for repairs of all kinds on the various school mildings of the city. These repairs are itemized in the committee's estimate and include almost everything from the erection of new fences around certain schools to the cementing of the cellars of others.

Engineer Harris says that it will require \$2,000 for the sanitary improvements required during the coming year while the remaining \$7,000 is wanted for

Contractor John Benore, who is now erecting the new No. 2 school in South Scranton, appeared before the committee and satisfactorily explained the de lay in the construction of that bulld ing, which is not yet half completed, although, according to the contract, it must be finished by June 1.

### Wanted to Rent

a large, well-furnished residence by a very responsible, desirable small private family, no children. Very best care guaranteed. Must be well located and have good surroundings. Will pay, if necessary, \$100 per month. Address T. Hackett, Price building, 126 Washington avenue.

A Card.

### REFORMS IN CARING FOR THE STREETS

COMMISSIONER.

Rowland D. Thomas Makes a Number of Suggestions to Councils. Believes That the Old Cobble Stone Pavements in the Central City Ought to Be Replaced-They Are Hard to Clean and Keep in Repair. Ought to Be a Settled Policy About the Opening of New Streets.

The following report of Street Commissioner Rowland D. Thomas was presented at the reorganization of councils yesterday and ordered flied: To His Honor, the Mayor, and Gentle-men of the Select and Common Coun-

cils of the City of Scranton. Gentlemen: I herewith respectfully submit to you the annual report of the street department, detailing the various expenditures, etc., made by this department sunder the supervision of my pre-decessor, P. J. O'Boyle, from April 1 to Sept. 1, 1899, and under my supervision the balance of the fiscal year. Unlike in former years, I do not propose

to make any contracts for private sweep-ing, but expect to do all the cleaning by men hired by the day, thus bringing all work of this kind directly under the control of the street department, and with the new system of both flushing and sweeping, I expect to be able to keep the increased amount of payement clean as possible, with the amount of money appropriated for this kind of work, although the amount is inadequate: I also expect to adopt the system of sweeping, known as the "Block System," whereby each man is given a certain amount of territory, and is expected to keep the same clean all the time.

The condition of the asphalt streets in the city is very good since the greater part of the same have been entirely resurfaced by the Barber Asphalt compa as per contract with the city to keep the

said pavement in repair. BRICK AND STONE PAVEMENTS. The brick and stone block pavement of the city is also in good repair, as most of the brick pavement has been but recently laid. The only kind of pavement out of repair is the old cobble pavement in the different parts of the central city. I would suggest that some more substantial kind of pavement should replace this, as it is hard to keep clean and in repair.

The condition of the unpaved streets in he outlying wards of the city is poor, as large percentage of the said streets are ocated in the hilly portions of the city, and where there are no sewers, conse quently, after a heavy rain storm, the streets are very badly damaged by water, so much so, that in the spring and fall, many of them are almost impassable. If some system of macadamizing the said streets could be adopted, as is done in other cities, I feel very sure that the esults would be satisfactory to all.
In connection, I might add that I think it would be wise if your honorable bodies would pass an ordinance fixing the width of wagon tires to be used within the city

limits, as it is a well known fact, that the use of such narrow tires as are generally used in our city, is detrimental to having good dirt streets.

A number of streets, such as Brook, Cherry, Fig. Palm and Elm, in the Nine-teenth and Twentieth wards, are in a very bad condition, and I would sug-gest that your honorable bodies appro-priate money for the repair of the said streets, as the ward appropriation are inadequate; also Providence road and North Main avenue, which have been the subject of comment for so many years, are still in a deplorable condition, out it is hoped will be payed this coming

WOODEN BRIDGES

From the fact that our bridges and alverts which are wooden structures, and those which have plank flooring, are growing older every year, and in consequence require more repairs each year, also the fact that in previous years the appropriation for the repair of the same has been so small, that they could not receive the necessary repairs; also that lumber and nails have advanced over twenty-five per cent, since last year, you will notice why I think the appropriation is very small as compared with the amount of repairs that must be made this year. Take for example the Lackawanna avenue bridge which has been patched from time to time until now it must be replanked, at a cost of \$575 for lumber, without the cost of nails, labor and hauling. The Cedar avenue, Elm street and East Market street bridges must be replanked this year, as well as the small

A lot of the newest styles of Stiff Hats, very dressy and of good quality, guaranteed to look well on the homeliest man in town. If you have a big head we can cover it in the latest style for

\$2.00.

203 Washington Ave.

### culverts in which the city abounds will need repairing this year. These small wooden culverts I expect to replace with iron pipe or stone, as the life of wooden culverts is only two years at most, and where iron pipe is

ANNUAL REPORT OF STREET

used, or a paved gutter as the case may reculre, they will last a decade. The sewer basins of the city, in my mind, have not received the necessary appropriation made each year for the closing of the same, as a large part of the sewers are built wholly or partially upon unpaved streets, and after every heavy rain storm the basins are filled with sand and other refuse that may have accumulated upon the said streets thus necessitating double the amount of cleaning required by those which are on paved streets, and with the increased number of basins which are now being constructed in the different sections of the city, and these almost wholly upon inpaved streets, will require much additional work, without any extra appropri-ation being made for this branch of the

department. PAPER RECEPTACLES. According to my opinion, it was rather

unfortunate that your honorable bodies could not allow the appropriation for paper receptacles asked for, as in al-most every city of importance in our own and nearby states, they use some kind of a receptacle for holding paper, etc., and have them placed along the principal thoroughfares of the city; the public soon recognize the purpose for which they are placed there, and instead of throwing paper or banana peeling, and other matter upon the streets, they deposit the same into the receptacle, this posit the same into the receptacie, this keeping the streets clean from paper, etc., which causes an otherwise clean pavement to look dirty. I made several inquiries about them before submitting my estimate for 1200, and found that for three hundred dollars, we could purchase enough for the use of the central city,

> districts. I also wish to call your attention again the kind of wagons used in the city for the purpose of hauling refuse, which are known as "job wagens," and owned by parties who make a business of carting refuse. Some of the wagons referred are a disgrace to the city because of their looks; others have not closed bot toms and sides, and allow ashes and oth

er material to drop on the streets over which they pass. When we consider how much money it costs the city each to keep its streets clean, and then to allow these wagons to be driven depositing dirt upon the streets; I think your honorable bodies should enact laws designating who should be allowed to cart ashes and matter, either by private contract or by placing the same under the supervision of this department. So many complaints have been received at this office in regard to this matter, and the dumping of the same into the river and upon the streets and courts of the city. I have employed a man, known as general street inspector to look after this matter. With his help and the aid I expect the police department will give me. I expect to make a decided improve-

and I still believe they would have saved

the city more money this year than they would cost, and I hope before long your

honorable bodies can make an appropri-ation for the purchase of a sufficient number for the use of the central city

and the business portion of the outlying

ment over previous years in this branch of the department.

THE NEW STREETS. Another fact to which I feel it my duty to invite your attention, is the new streets which are being opened within the city limits by different parties, which are not at grade, and in some cases are only old ravines, in some way they usu-ally become the property of the city, and the city must repair and put the same to grade. I would suggest that your honorable bodies pass an ordinance making it unlawful for any one to open a street within the city, without first submitting a map of the same to the city engineer and the street commissioner, showing the condition they expect to put the said street in, which street must put to grade and in such repair as in t judgment of the city engineer and th treet commissioner the case may require In conclusion my thanks are extended to his honor, the mayor, and the honor-able the select and common councils, and

the many courtesies extended. I hope the good feeling that has existed during my short term of office may continu luring the coming year. During the year the following amounts were expended by the depart ment: Cleaning asphalt pave, \$11,769.63 leaning sewers and drains, \$4,116,46; epairs of sewers and drains, \$3,762.15; cleaning stone block pave. \$1,413.06; repairs of stone block pave, \$699.99; repairs of bridges and culverts, \$3,863.96: repairs of Eim street, \$249.17; repairs of Jackson street, \$293.31; repairs of Mulberry street, \$238.10; salary of engineer for road roller, \$215; repairs and supplies for road roller, \$471.15; repairs of Abington turnpike, \$1.498.46; printing and stationery, \$74.81; incidentals,

the various heads of the departments for

sued by the department. Stop and Procure

\$53.04; amount of pay roll, \$28,718.29.

During the year 729 permits were is-
